Professor Jeffrey Kurtzman
Department of Music
Campus Box 1032
Washington University

Dear Jeff:

Thanks for your note about my graduation from the job of Chancellor. The decision was difficult, but, I believe, the timing is right. I should like to stay forever, but no one has yet been granted that wish.

Ibby and I have been most fortunate to work with what we consider to be the most wonderful people in the world. Thanks to you and Kathi for being an important part of our lives and the life of Washington University. You have made Washington University and the Department of Music better and much more visible in the community. We have been very fortunate to have you here.

With best regards,

Yours sincerely,

William H. Danforth
Chancellor
