Subject: Question

Dear Sonya,

I was looking on the wustl.edu website for current information about the FAAAC and its hearing procedures, and ran across the attached information, which indicates the harassment policy was revised in 1996.

When you're looking at the 1995-96 and 1996-97 files for FAAAC membership, can you keep an eye out for anything about this revision, such as the committee, a committee charge, points of discussion, conclusions, announcements to faculty and staff of the new policy, etc.? I don't know if anything like this would be in the files, but it would be useful to know about if it is, especially any general announcement of the change in policy.

Once again, many, many thanks.

Jeff
